

DIMENSION LEGEND

Millimeter (mm)
Inches (") / Foot (')

Note:

Aluminum starter strip is required to install the Resysta siding board. Attach the starter strip at the bottom of the battens following the fastener and spacing recommendations. The Resysta siding boards will hang 12.70mm below the bottom of the starter strip therefore the starter strip should be attached accordingly as per the pre plan layout.

Resysta Siding Board Gap Guide					
Temperature at Installation	Aluminum Trim Gap of Siding Boards				H-Channel Gap
	Below 0°C	15°C	20°C	30°C	
Amount for Siding Profile - Length of 2900mm.	10mm	7mm	3mm	0mm	6mm

Note :

An H-Channel should be installed at each board abutment joint to cover the ends of the Resysta siding board. This is a option for installations using 3 or more boards abutted end-to-end

	Below 0°C	15°C	20°C	30°C	
Amount for Siding Profile - Length of 2900mm.	10mm	7mm	3mm	0mm	6mm

Note :
 Inside corner trim should be pre-applied prior to installing siding boards. The starter strip for the first board should be installed butted against the corner trim, not overlapping the corner trim attachment. Follow the gap guide when installing the siding board to allow for expansion and contraction within the inside corner trim.

Amount for Siding Profile - Length of 2900mm.	10mm	7mm	3mm	0mm	6mm

Note :

Outside corner trim should be pre applied prior to installing siding boards. The starter strip for the first board should be installed butted against the corner trim, not overlapping the corner trim attachment. The siding board end that is inserted into the outside corner should be miter cut at a 45 degree angle to match up with the outside corner internal web.

	Below 0°C	15°C	20°C	30°C	
Amount for Siding Profile - Length of 2900mm.	10mm	7mm	3mm	0mm	6mm

Note :

When a siding board in either a horizontal or vertical application terminates into a wall, eave, window, door etc. a J-channel should be used to cover the exposed end of the siding board. The J-channel should also be used along the bottom of a vertical installation. J-channel trim should be pre-applied prior to installing siding boards.
